

Our Health Strategies members are very health conscience and many monitor clinical values on a regular basis. This assists in the process of monitoring specific individual health risk factors, can provide information to physicians and allows our members to access the services at a very reasonable price. Below is a list of our clinical services available for our membership:

- Blood Pressure
- Blood Sugar Levels
- Body Composition
- Fitness Assessment (additional fee)
- Cholesterol Profile (additional fee)
- Fasting Glucose (additional fee)
- Prostate Specific Antigen PSA (additional fee)
- Individual Health Risk Assessments (additional fee)

For More Information on our Membership Clinical Services, please give us a call at 316-962-8015
